RODENTS

Fight rodents naturally!

MICE

Round wooden mouse trap

To capture live mice.
Round metal cage on a wooden board with an entrance hole.
Anti-return system. To release the mouse just open the trap door underneath the trap.

Reference Description

129814 Cage mouse trap with wooden board

Round wooden mouse trap 12 cm

Ideal cage trap to catch mice with bait. Very easy to use, simply open the hatch and place the bait on the bait holder and place the trap in an area where mice are present. The mouse is attracted to the bait and enters the trap cage, which closes behind it. The mouse is trapped alive, and you can release it elsewhere. The trap's wooden base ensures optimum rigidity and reassures the animal!

Reference Description

129800001 L 12 x W 5.5 x H 6 cm

Mouse trap 23 cm

This trap is easy to use. Simply place some bait in the back of the cage, which is accessible through a door. You can then place your trap in the desired location and wait for the mice to fall into the trap. This 23 cm trap is large enough to capture one or more live mice at the same time. No poison is involved, so it is safe for children and pets and can be used anywhere in the house, garage, attic or any other location. The bars of the trap are made of galvanised steel, to ensure a long service life.

👍 Tips: Open the cage and place the bait in the middle of the cage.
Close the trap and place it in an area frequented by rodents.
Check daily. Once caught, the rodents can be released elsewhere.

Reference Description

129800 L 23 x W 15 x H 12 cm

Rectangular mouse trap 23 cm

Multi-catch cage mouse trap. Easy to use. Simply place some bait in the back of the cage which is accessible through a door. You can then place your trap in the desired location and wait for the mice to fall into the trap. The bars of the trap are made of galvanised steel, to ensure a long service life.

✓ USP: The rectangular trap is easier to stack in store.

Reference Description

129800002 L 23 x W 14 x H 10.5 cm

SUPERCAT Mouse trap

Its exclusive patented design prevents the trap from closing until the mouse has entered. The bait used is a non-toxic product that is highly attractive to mice. Simple push-button operation. Hygienic, no-touch mouse release. No springs or snap-shut jaws. Safe for children, elderly persons and pets. Suitable for indoor and outdoor use. Bait refills available. Does not kill.

Reference Description

- 129808** Shelf display x 6
- 129808010** Bait refill x 6

Mouse bait station

Locked bait station for professional use with toxic bait.

Reference Description

- 129706** Bait station

Multi-SPECIES

Ultrasonic rodent repeller

Ultrasonic rodent repeller continuously emitting high-frequency sound waves that drive mice and rats away. Simple and safe to use. The sound waves are inaudible to humans.

Designed to repel most rats, mice and other pests. Environmentally friendly: no chemicals or poisons. Mains operated.

Reference Description

- 129816001** Small model - 15 m²
- 129816002** Large model - 30 m²

Wire trap

Wire trap Ø 13 cm or 17 cm, ideal to capture mice or rats. Very easy to use. Simply place bait on the trigger and open the wire trap to set it. Once set, it should be circular in shape. When the animal takes the bait, the trap closes to capture it.

✓ USP: Works for mice and rats

Reference Description

- 129701113** 13 cm
- 129701117** 17 cm

SUPERCAT PRO mouse trap

A super-efficient, species-specific trap that eradicates mice thanks to its no-fail capture system. Ingenious patented trigger mechanism, easy grip system and powerful hammer-blow killing system.

New design that kills mice instantly without suffering or injury.

Rapid, species-appropriate eradication. Natural bait included.

Reference	Description
129815001	Shelf display 8 x 1
129815002	Shelf display 8 x 2

No See No Touch mouse trap

The SWISSINNO No See No Touch mouse trap rids you of mice safely and hygienically.

The patented trap system means the user does not have to see or touch the dead animal.

This trap has proved itself to be more effective than other products on the market thanks to the use of 100% natural bait. Bait refills available.

Reference	Description
129809	Mouse trap
129808010	Bait refill x 6

Classic mousetrap

The SWISSINNO Classic mouse trap is the perfect tool to rid you of rodents in total safety.

FSC-certified wood (Forestry Stewardship Council). This logo guarantees consumers that the wood used is from ecologically managed forests. Highly efficient thanks to its hammer, its bait hook and a powerful spring

Reference Description

129813024 Shelf display 24 x 2

FSC wood mouse trap

The mouse trap platform is made of FSC-certified wood (Forestry Stewardship Council). This logo guarantees consumers that the wood used is from ecologically managed forests. Suitable for indoor and outdoor use. The patented hold-down mechanism makes for a trap that is easy and safe to use. Swiss design with powerful spring for efficient capture. The specially shaped bait holder facilitates setting of the trap (use cheese, bacon, chocolate, etc.). The equal distance between the round flap and the bait ensures the rodent is caught every time.

Reference Description

129811060 Shelf display 60 x 1

129811024 Shelf display 24 x 2

RATS

Rat trap with wooden base 28 cm

Ideal cage rat trap for use with bait. Very easy to use. Simply open the hatch of the trap, place some bait inside and place the trap in an area where rats are present. The rat, lured by the bait, enters the cage and it closes behind it. It will be trapped alive. You can then release it elsewhere. The trap's wooden base ensures optimum rigidity and reassures the animal! Also works with mice.

Tips: You use use as bait to trap mice and rats: cheese, fruit, bread, dry dog or cat food, chocolate, small pieces of meat.

Reference Description

129806001 28 cm

Rat trap 40 cm

This cage rat trap is ideal for capturing more than one rodent (rats and others) at a time. Easy to use. Simply place some bait in the back of the cage, which is accessible through a door. You can then place your trap in the desired location and wait for the mice to fall into the trap. This 40 cm trap is large enough to capture one or more live rats at the same time. No poison is involved, so it is safe for children and pets and can be used anywhere in the house, garage, attic or any other location. The bars of the trap are made of galvanised steel, to ensure a long service life.

Reference Description

129806 40 cm

Rectangular rat trap 41 cm

This leghold trap is ideal for capturing rats, dormice, etc. Easy to use. Simply open the trap hatch at the back and place some bait in the middle of it. Then place your trap in an area where the pests are present. The rat is lured in by the bait, enters the trap via the anti-return passage and is trapped alive. You can then release it elsewhere. The bars of the mouse trap are made of galvanised steel, to ensure a long service life.

Tips: The advantage of the rectangular trap? It's easier to stack in store.

Reference Description

129806003 L 41.5 x W 23.5 x H 17 cm

Leghold trap for rats

Leghold trap for rats, ideal for catching rats, dormice, garden dormice and other pests inside buildings or enclosed properties. It is the ideal solution to guarantee successful capture. For use inside buildings

Tips: Set the trap, taking care to protect your hands. Do not forget to put on the safety catch when setting the trap. Place some bait in the middle to increase the chances of capture. If the jawed rat trap has not caught anything after a few days, move it to a different location or add some food. Remember to tie the trap down to prevent the rodent from moving it if it is only partially caught in it. After capture, clean the trap with soapy water. It will then be operational for repeated use.

The repeller is equipped with a solar panel to recharge its AA rechargeable batteries (not supplied).

Reference	Description
129816003	Ultrasonic repeller

PINE MARTENS

Anti-marten device for cars

Installed in the engine compartment of a vehicle, this system repels martens, weasels etc. using a combination of aggressive ultrasound and high-voltage electrical discharges. Effective against pine and beech martens, dormice, otters, badgers and ferrets.

A loudspeaker integrated into the control box emits ultrasonic pulses in series, which are constantly modulated at frequencies between 23 and 27 kHz. Eight stainless steel plates are placed on the parts in the engine compartment that are liable to be attacked (hoses, tubes, pipes, electric wires) and they are subjected to a 250V voltage from the control box. Inaudible to humans. Does not harm the animals

Reference Description

129817 Anti-marten device for cars

VOLES

Vole traps

Easy-to-use, highly effective vole trap. Can be used in any direction in the tunnel. No danger to users or pets. Reusable.

129804004 Planter and probe accessories x 4

MOLES & SLUGS

**Take care of your garden,
eliminate pests!**

MOLES

Putange mole trap

The Putange mole trap has been used by professional mole trappers for decades. It is effective and kills the animal instantly. Choosing the Putange mole trap means choosing durable, economical and ecological solution. 2 traps must be installed in each tunnel, one in each direction.

Tips: Carefully place the traps in the tunnels and secure them with a strong rod.

Reference	Description
129710010	Sold in pairs
129710011	1 setting key
129710012	1 pair of setting pliers
129710013	Triggers in packs of 10

Hand mole trap

This trap is set by hand and can be reused ad infinitum as long as you have a trigger to hold the trap open and ready. This trap is used without a setting device. When the mole pushes against the trigger (a small metal frame that holds the trap open and ready), it trips the spring and finds itself trapped between the two jaws. An effective trap, economical and very easy to use in your fight against moles!

Tips: Let your trap rust before you use it, moles have a keen sense of smell.

Reference	Description
129710020	Sold singly
129710013	Triggers in packs of 10

Single rivet mole trap

The single rivet mole trap is very simple to use. It is set by hand. A very effective way to rid your garden of moles. Place a trap at each end of the tunnel. Insert the trigger between the jaws.

Reference	Description
129710030	Sold in pairs
129710031	Triggers in packs of 10

Double rivet mole trap

Double rivet mole traps are a highly effective way to eradicate moles once and for all! Easy to use, high quality!

Reference	Description
129710040	Sold singly
129710041	Triggers in packs of 10

Tunnel tube mole trap

Allows the capture of a live mole thanks to an anti-return flap that closes behind the mole once it has entered inside the trap and prevents it from getting out. Simple to use. Simply place the tube mole trap in a tunnel used by animal, then close it again. The mole enters the tube and cannot get out again. You can then release it elsewhere.

Reference Description

129710050 Sold singly

Bavaria type mole trap

The Bavaria-type mole trap is simple to use and very effective. Very easy to install - no tools required. Bavaria-type mole traps come in packs of 2 to maximise your chances of capture.

👍 Tips: Rub your gloves in the soil so that you do not leave your odour on the device.

Reference Description

129710060 Sold in pairs

Solar mole repeller

Emits sequential vibrations that disturb the moles. Easy to set up in: just plant in the ground.

Ergonomic design: easier to push into the ground Ideal for gardens, lawns, sports grounds and golf courses. Effective over an area of about 650 m². Harmless to your family, pets, the environment, earthworms and insects in the ground. Perfectly waterproof.

Reference Description

129710 Solar mole repeller

SUPERCAT mole trap

Quick and easy to use. Traps moles entering on both sides of the trap. The handle wings are lowered when a mole has been trapped, allowing you to monitor the trap from a distance.

Reference Description

 Suitable for home use in bedrooms, living rooms, etc.

✓ USP: Product design, elegant for indoor use

Reference	Description
-----------	-------------

129510 5W LED - 80 m²

Beaumont

IPX 4 360° insect exterminator

This insect killer uses ultraviolet light, which attracts flying insects to the active area of the device. The UV tubes are protected by a plastic film that makes the glass more resistant. It keeps the glass in place if the tube is broken.
 There is an electrified grid in front of the light tubes. When an insect comes into contact with this grid, it is immediately and hygienically killed.
 It drops into the collection tray.
 The insect killer is class IPX4 . It is therefore splash-proof and rain-proof.
 A real plus to protect you from insects!
 360° opening for a better insect attraction zone.
 This means insects are attracted across a wider area.
 This insect killer's 360° attraction power is a real bonus!
 The device is environmentally friendly as it uses no toxic products.
 For indoor or outdoor use. For use in the home, restaurants, farms, stables or even on a large patio. Comes with a hanging system.
 3 models are available; 16W, 30W and 40W, with a respective coverage of 100 m², 120 m² and 140 m².

✓ USP: 360° opening Outdoor use

Roll of fly paper

Classic, effective product. Flies are lured onto the natural attractant and trapped on the sticky paper. The old solutions are the best!

DID YOU KNOW?

3 main species of flies are found on livestock farms: the housefly (*Musca domestica*), the lesser house fly (*Fannia canicularis*) and the stable fly (*Stomoxys calcitrans*).

The fly cycle from newly laid egg to adult lasts from 3 to 4 weeks. Flies are carriers of diseases (myiasis, dermatitis, etc.) and have effects on animal health and production. 50 flies on the back of a cow can reduce its milk production by 50% and its weight by 25%.

Reference	Description
129562	Sticky fly paper

STICKY fly tapes

Sticky fly tapes 7 m or 9 m in length, free of chemical residue or powder. Thanks to its strong, instant attractiveness, the Sticky fly trap is a formidably effective way of trapping all the flying insects that touch it. It is thanks to its patterns that the Sticky fly tape is so effective. Its 30 cm width provides a large surface area that flies can easily land on. The Sticky fly tape can be hung virtually anywhere thanks to its metal hanger.

Reference	Description
129640007	7 m - Sold singly
129640009	9 m - Sold singly

Self-adhesive window fly traps

Clear fly traps to stick on windows. Ideal for trapping flies thanks to its sticky surface. Non-toxic. Contains no chemicals or insecticides. Environmentally friendly product.

DID YOU KNOW?

Before becoming the full-blown fly we are so familiar with, this insect is a larva. Flies are present from March to mid-November and breed in summer. A fly has a lifespan of 10 to 50 days depending on the temperature. During this period, a female can lay up to 2,000 eggs.

The fly is a carrier of germs and in particular a large number of bacteria. They're attracted to wet organic matter (manure, mouldy food, compost, etc.).

Reference	Description
129631	20 x 8 cm

STICKY fly tape

Thanks to its strong, instant attractiveness, the Sticky fly trap is a formidably effective way of trapping all the flying insects that touch it. It is thanks to its patterns that the Sticky fly tape is so effective. Its size, 580 mm x 320 mm, provides a large surface area which flies can easily land on. Supplied in packs of 6 strips.

Reference	Description
129641	Sticky tape 580 mm x 320 mm

STICKY fly string kit

This complete anti-fly kit is the perfect way to get rid of flies quickly and for good! With its 300-metre long sticky fly string, you will maximise your chances of capture! The kit also includes an unwinder so that you can simply and quickly unwind your string for installation in seconds.

This anti-fly string is for use in all types of locations, such as livestock buildings, chicken coops, barns or even warehouses. It is recommended that the string only be used indoors to avoid trapping small birds.

With string

129636	Refill with 400 m ribbon

Mosquito Stop Lantern

The SWISSINNO Mosquito Stop lantern effectively eliminates the mosquitoes that stop you from making the most of your outdoor spaces (patio, balcony, garden) and spoil your open-air activities (camping, fishing, barbecues). Can also be used indoors. The active substance released by the heat of the candle protects against mosquitoes for 4 hours over an area of 20 m². As well deterring mosquitoes, the SWISSINNO lantern, with its attractive design and warm ambient light, will be an attractive addition to your garden or patio decor.

Contains BITREX bittering agent to make it unpalatable and prevent ingestion by children and animals.

Reference	Description

129501024	Floor display x 24
129501006	Candle and plate refills 12 h x 6

Natural Control fly trap

The impressively effective Natural Control fly trap is specially designed for use outside, but can also be used indoors. Can be composted. Place in the sun. The trap is supplied complete with a natural bait made from food protein that has a strong power of attraction for all kinds of flies. Contains no chemicals. Flies are irresistibly attracted by the trap. Once inside, the shape of the trap prevents them getting out again and they are trapped. You can choose to hang the trap or stand it on a flat surface! Ideal for use outdoors: garden, courtyard, play area, patio, kennel.

✓ **USP** : Designed for outdoor use only

Reference	Description
129550	Natural Control fly trap
129550001	2 bait refills
129550012	Counter display x 12

LED Premium indoor insect destroyer

Flying insects (flies, pantry moths, mosquitoes) are attracted by the ultraviolet light and immediately killed by the high-voltage grid. Dead insects drop into the collection tray, which is easily removed for emptying and cleaning. The ultraviolet light is safe for humans and pets. Compared to a fluorescent lamp, a LED uses half the power (watts) to generate the same light output (lumens) and has a much longer lifespan. The high-voltage electric grid is a new design that greatly increases the capture rate. It meets all CE safety requirements.

✓ **USP** : The poison-free solution

9129508010	Spare 10W LED

22W insect catcher

The insect catcher attracts and exterminates flying insects with extraordinary efficiency: flies, mosquitoes, etc. They are sucked into a container by a powerful fan. Covers an area of 80 m². Contains no chemicals or poisons. Generates no fumes or odours and causes no pollution. The product is compact and modern look and is suitable for use in any room in the home. It is also the ideal solution for industrial and commercial premises.

129508022	22W fluorescent tube

WASPS & HORSEFLIES

Natural Control wasp trap

Wasp trap with natural, chemical-free bait, for use outdoors and inside buildings. With bee repellent.

Wasps are lured inside the trap by the natural bait.

Can be composted. Place in the sun.

The shape of the trap prevents them getting out again. Placed near a table, it stops you being disturbed by wasps, hornets and Asian hornets while you are eating.

A natural, but formidably effective trap.

✓ USP: Bee repellent

INSECT FREE horsefly spray

Contains Icaridin (20.60%), which is officially approved for use against horseflies.

Protects horses against horseflies, mosquitoes and flies for 24 hours in high temperatures when horses sweat.

Protects both horse and rider. Pleasant smell, does not stain, non-sticky.

Spray the product onto the horse all over and covering as much as possible, from a distance of 15 to 20 cm. However, avoid applying directly to mucous membranes and wounds. Apply to the rider on the uncovered parts of the body (hands, arms, legs).

Avoid the eyes. Contents: 500 ml

BIRDS & PIGEONS

**Protect your
crops from birds!**

BIRDS

Magpie and crow trap

Formidably effective and operational as soon as it is installed. Can be used in particular to capture decoy birds for magpie or crow cage traps. Simply bait according to the species you wish to catch with eggs, seeds, bread, fruit, etc.

The bird is trapped when it comes to take the bait: it is not injured or killed and can be released if necessary. Do not use meat as bait.

129703011	Small model 42 x 42 cm
-----------	------------------------

129703010	Large model on a post 75 x 80 cm
-----------	----------------------------------

Crow cage trap with perch

Size suited to corvidae. The entry doors are oversized, making it particularly effective. Supplied with perch and central decoy bird compartment. 3 compartments.

Tip: It is the responsibility of the consumer to comply with applicable regional or national legislation relating to the use of these products and to trappable species.

Reference	Description
-----------	-------------

129703030	92 x 31 x 31 cm
-----------	-----------------

Octagonal magpie cage trap

This very effective trap is used with a central decoy bird that attracts other birds of the same species. 4 entries around the periphery. Hatches close with a tilting perch system. Allows the bird to fly around the trap to find the entrance. The octagonal shape guides the magpie towards the entrance which is most visible to the bird (prevents the bird flying round without entering the trap). Entirely powder coated. Welded wire mesh. Wire thickness 1.8 mm. Also suitable for crows.

Tip: Place your cages in an open space, avoiding trees. Look after your decoy bird (water + food) because it is essential for this trap to work. If you have no luck with your decoy bird, don't hesitate to replace it. In the Haut-Rhin region of France a Prefectoral order dated 27 June 2017 removed the Eurasian magpie from list of species classified as harmful (List II).

Reference	Description

UKAL

VERBRUGGE gas cannon bird scarer

Device with double gas injection and a housing protecting the mechanism. Protects an area of 1 to 4 hectares depending on the terrain and vegetation. Piezoelectric ignition system for about 200,000 detonations. Interval regulator to set detonations at intervals of from 30 seconds to 30 minutes as required. Propane fuel only. One bottle provides approximately 25,000 detonations. Can be fitted with a timer for more flexible use of the gas cannon.

Tip: Ideal for protecting field crops during sowing and before harvesting (maize, peas, sunflowers, cereals, vines, etc.). Scares away birds and protects your fruit crop.

WILD ANIMAL CAGE TRAPS

Discover our essential
entrapment solutions.

Single-entry cage trap with sliding door

62, 82 or 127 cm long cage trap, ideal for capturing rats and beech and pine martens. It has one entrance with a drop-down door. Robust, but lightweight, this trap is easy to transport with its integrated carrying handle. The trigger plate at the end of the trap is ultra-sensitive, which ensures that the animal cannot get out again once the door has dropped. The 127 cm cage has a compartment for live bait. Irresistible to predators. This cage trap features a fast-closing sliding door, for safe and easy manipulation of the trap. Very effective and totally harmless, it can be used anywhere (woodpile, barn, chicken coop).

Reference	Description
1297021254535	Sold singly - with compartment for live bait 127 x 36 x 47 cm
12970213030	Sold singly - 82 x 32 x 31 cm
1297021602020	Sold singly - 62 x 21 x 21 cm

Double-entry cage trap with sliding doors

Category 1 trap. This 64, 103 or 130 cm long cage trap is ideal for capturing foxes (103 and 130 cm), beech martens, rats and any other mustelids. It has 2 doors and is ideally placed on a path frequented by the pest. The animal will walk through it and be captured when it steps on the ultra-sensitive trigger plate. Make sure you block up any other passages so that the animal is forced to walk through the trap. Scented bait is recommended. Includes a carrying handle.

The cage trap can also be used with just one door open, by placing some bait at the far end of the cage. Very effective and totally harmless, it can be used anywhere (woodpile, barn, chicken coop).

Tip: It is the responsibility of the consumer to comply with applicable regional or national legislation relating to the use of these products and to trappable species.

Reference	Description
12970222020	Sold singly - 64 x 21 x 21 cm
12970223530	Sold singly - 103 x 31 x 31 cm
12970224535	Sold singly - 130 x 36 x 47 cm

1-entry coypu cage trap

Category 1 coypu trap, size 82 x 31 x 31 cm. The unique bait rack ensures the bait is highly visible, so that the trap is even more effective.

The epoxy-painted door is invisible to the animal when open. The Ø 2.6 mm wire mesh prevents the trap rusting whilst allowing it to blend in with its surroundings. Even if placed at the water's edge, it will keep its appearance and effectiveness for many years.

Reference	Description
1297021823030	Sold singly - 82 x 31 x 31 cm

2-entry cage trap with invisible doors

Cage trap with a revolutionary setting system designed in the USA that makes the doors virtually invisible to the animal, thereby increasing the chances of catching the fox, marten or any other animal of a similar size.

This trap has 2 doors and is ideally placed on a path known to be used by the pest. Simple to use, this cage trap can be set in seconds. It is easily transported thanks to its carrying handle.

It is robust and of superior quality.

The wild animal cage trap's steel doors are coated with green epoxy paint.

Reference	Description
12970222222	Sold singly - 80 x 19 x 19 cm
12970222523	Sold singly - 102 x 30 x 21 cm
12970223030	Sold singly - 127 x 26 x 26 cm

Cage trap with slide - rat trap

This compact, easily handled cage trap is ideal for capturing rats. Its 19 x 19 mm mesh is perfect to ensure the animal is not injured and cannot escape once captured.

Sturdily made, it will resist any weather thanks to its green epoxy paint finish. It will also blend into any environment with no difficulty. Available in versions with 1 or 2 doors. Lightweight and easy to transport thanks to its integrated handle, you can take this trap anywhere. With it you can trap easily, quickly and for a long time to come!

Reference	Description
129701502020	Sold singly - 50 x 20 x 20 cm
129702502020	2 doors - 50 x 20 x 20 cm

Weasel box

This trap does not necessarily need to be baited, as the animal will generally enter out of curiosity. This type of trap is harmless and effective. It can be placed anywhere (woodpile, barn, chicken coop, etc.).

It is a very selective trap: it only lets in the smallest animals. The system is simple: when the animal enters the trap, the trigger plate tips forward, the anti-return system activates and prevents the trigger plate tipping back again, ensuring the animal is a prisoner in the cage.

Tip: Soak the box with a scented liquid bait. This will make the trap more attractive and increase the number of catches. The entrance of the box must not be raised off the ground, but level with it.

Reference	Description
129704003	Sold singly - 49 x 6 x 8 cm

Rabbit tube trap

This trap can be useful if you need to catch rabbits in one place to release them in another. Even used alone, you will get good results because the tilting door requires no surveillance. Once inside, the animal cannot go back out as the door closes behind it. The rabbit is caught alive and unharmed. It can be released elsewhere. Length: 81 cm. Ø: 13 cm.

Tip: It is the responsibility of the consumer to comply with applicable regional or national legislation relating to the use of these products and to trappable species.

Reference	Description
129704001	Sold singly - Ø 13 x 81 cm

TRAPS FOR LICENSED TRAPPERS

**A professional range for easy
vermin control!**

Snares

For foxes only.

The very flexible wire and its irreproachable slide are indispensable to facilitate capture.

This snare has a latest-generation anti-return feature which prevents the snare re-opening once it is closed.

It also has an end stop. The very thick cross-section of its swivel ensures solidity after capture. The stop (crimped) on the wires is crushed steel and not aluminium (non-shiny at night). The snare has a tag to engrave the trapper's number. Ideal for capturing foxes.

Reference	Description
129704100	10 white snares / Ø 1.6 mm
129704101	10 black snares / Ø 1.6 mm
129704201	10 black snares / Ø 2 mm
129704300	10 white snares / Ø 2.3 mm

Baited foothold trap Ø 30 cm

Baited foothold trap, sometimes called a kill trap, 30 cm in diameter, ideal to capture foxes and beech martens quickly and easily. Simply place the bait of your choice in the trap, set it and wait for the pest to be caught. Sturdily made and painted by cataphoresis to limit rusting and reduce the odour of human beings.

This is an ideal trap to rid a roof space of beech martens or protect a chicken run from foxes or martens. It is easily set and you'd be surprised at how effective it is. Use this baited trap to capture pests like beech martens and foxes with ease!

The mechanical parts are laser cut for greater stability and reliability.

👍 Tips: Like an egg trap, use this trap in a cage in which both entries are the same size as the animal. In the garden, limit the size of the opening with stakes or stones in order to only let in the animals you want. No meat bait visible from the sky.

APPROVAL NO. PHE 608

Reference	Description
129700009	Sold singly

Safety system for conibear traps

This safety system is specially designed to safely set conibear traps of all sizes.

Don't risk injury any longer and set your traps in just seconds with this safe system. Can be used on all conibear traps.

Reference	Description
129701020	Setting tool for conibear traps - Sold singly
129701021	Simple setting key for conibear traps - Sold singly
129701022	Safety system - Sold singly

Conibear trap

The conibear trap is compact and easy to transport. It has a powerful spring as well as a multi-position trigger. The sensitivity of the trap is adjusted by changing dog notches. Consists of a rigid, hand-riveted frame. You will be surprised by the quality of manufacturing of the device. Is used with bait placed on the trigger or in the cage, which directs the animal and increases the chance of capture. Its use is prohibited on regular animal paths.

It is very effective in a small garden, in bales of straw or burrows. As it is not selective, it is prohibited in areas where multiple animals pass through.

APPROVAL NO. PHE G664

Reference	Description
129701001	Sold singly with 1 spring - 13 cm
129701002	Sold singly with 2 springs - 13 cm
129701003	Sold singly - 18 cm

Egg bait foothold trap for beech martens

Category II trap. For capturing beech martens in particular. Designed to be set up indoors (hen house, barn, roof space) or outdoors, where it will be covered with straw or leaves to make it look like a nest. This type of trap is triggered when the animal removes the bait. It features a safety device, which it is preferable not to forget to use. The mechanical parts are laser cut for greater stability and reliability.

👍 Tips: Loosen the trap two hours after sunrise, unless placed in a garden or container where the egg cannot be seen (recommended as it avoids handling the trap). Lay the egg flat.

APPROVAL NO. PHE 609-610

Reference	Description
129700010	25 cm
129700011	30 cm

Belisle trap

The Belisle is commonly used to capture foxes.

This trap allows the pest to be caught safely thanks to the lace that tightens when it places its paw in the trap. Safety device and setting wedge included in the trap.

👍 Tips: It is the responsibility of the consumer to comply with applicable regional or national legislation relating to the use of these products and to trappable species. Caution: All of these traps can seriously injure or kill pets. They must only be used by authorised persons. Keep out of the reach of children. Always store traps unset.

APPROVAL NO. PHE 804

Reference	Description
129700020	Sold singly
129700022	Spare wire.

French-style leghold trap

Category IV trap: permit required. Traps must be checked within two hours of sunrise. The French-style leghold trap is a trap with a large trigger plate which improves the capture rate, and wide, hard-rubber lined jaws for a good grip of the leg. For use only by licensed trappers. Supplied with a lace. Trigger sensitivity adjusted by a Teflon screw and washer. The mechanical parts are laser cut for greater stability and reliability.

Tips: Use of the trap pre-baited in a sand pile usually gives good results. Liquid baits are widely used with this kind of trap.

APPROVAL NO. PHE 819

Reference	Description
129700025	Sold singly
129700022	Spare wire.

Steel double swivels

Double swivels made of steel with a thick cross-section. Mandatory for all traps. Not to be confused with the single swivel (non-regulatory).

Reference	Description
N97180	Sold singly

Engravable tags

Engravable tags. Useful to identify your traps.

Reference	Description
